At a recent public meeting of the Coastal San Pedro Neighborhood Council, the following resolution was passed by the Board of Directors:

Resolution regarding Port of Los Angeles Public Access Infrastructure Projects (PAIP) consultant for Waterfront Transportation Plan

Whereas the Port of Los Angeles (Port) solicited input for Public Access Infrastructure Projects;

Whereas the Port has delayed moving forward with these projects due to uncertainty regarding revenue projections;

Whereas the three San Pedro Neighborhood Councils and the San Pedro Chamber of Commerce all recommended that a portion of the funds be used to hire a consultant to develop a connectivity master plan;

Whereas such a process will require significant time to develop an appropriate statement of work, procure a consultant, and develop plans involving the community; and

Whereas such a process will only require a fraction of the anticipated PAIP funding.

Therefore be it Resolved, the Coastal San Pedro Neighborhood Council Board urges the Port of Los Angeles to consider funding to hire a consultant to develop a connectivity master plan now and move it forward for consideration by the Board of Harbor Commissioners.

Please contact Robin Rudisill, Chair of the CSPNC Planning Committee, at 310-721-2343 should you have any questions related to this letter.

Sincerely,

Doug Epperhart, President
On behalf of the Coastal San Pedro Neighborhood Council Board
